

# Bluebook Comply

A solution to ensure health plans meet compliance deadlines for the Transparency in Coverage rules & No Surprises Act

With compliance deadlines looming for the Transparency in Coverage rules and No Surprises Act mandates, health plans are challenged with meeting - and understanding - the requirements. **Healthcare Bluebook is here to help.**

Over the past two years, federal legislators and policy makers have called upon Bluebook's experts to share input during the rule-making process, enabling us to become fully fluent in the final transparency rule set and No Surprises Act.

**Our expertise allows us to relieve our health plan clients of the burden of compliance by providing a solution that addresses every nuance of the requirements to ensure all deadlines are met.**

And, as a Bluebook Comply partner, your clients receive preferred access to Bluebook's premium transparency and navigation solution that includes *quality metrics, incentives and engagement programs, and concierge service*—proven value that helps offset the cost of compliance.

Known for the simplicity of our color-coded solution, Bluebook Comply uses the same methodology to address each compliance requirement through language that's easy to understand and a tool that's easy to use. **See Page 2 for a detailed outline of requirements and deadlines.**
